

**CONTRACT TO PROVIDE EXTERNAL DEFIBRILLATORS
(AUTOMATIC, SEMI-AUTOMATIC, MANUAL)**

•

NOTICE 03/06/2014: The State of North Carolina has opted to change its approach for contracting for external defibrillators. This office does not have sufficient contract usage information to determine if a South Carolina only term contract is a viable approach to procuring these goods. Until viability is established, the State Procurement Office (SPO) does not intend to solicit a defibrillator contract(s). Anyone interested in SPO reestablishing defibrillator contracts may contact Juaquana Brookins at jbrookins@mmo.sc.gov with your organization's name, estimated annual quantities, and contact information.

NOTICE 3/3/2015: External defibrillators can be purchased from the Contract For Laboratory Equipment, Chemicals and Supplies NASPO Cooperative Contract – State of South Carolina.
